

6th Annual Payments Canada and Bank of Canada Joint Payments Research Symposium
Innovations and Artificial Intelligence in Payments

November 29, 2019
Ottawa, Canada

Payments Canada and the Bank of Canada would like to invite industry practitioners, central bankers, academic researchers and regulators with interest and expertise in payment systems and technology to participate in our annual joint research conference.

The event aims to provide a forum to discuss research on innovations that are impacting and shaping the payments industry.

The conference will host a limited number of presentations and panels to allow ample time for discussion and questions. Topics of interest include, but are not limited to:

- The application of Artificial Intelligence, Machine Learning and quantum computing to payment systems
- The impact of FinTech on payment systems
- Modernization of payments and payments migration
- Technological innovations in retail and wholesale payments
- Management of clearing and settlement processes using new technologies
- Fraud detection and cybersecurity in payment systems
